

ABSTRACT

Meiwan. ST, 2051059. Analysis Of News Framing Of 8 Victims Of Gold Miners in Banyumas on Detik.com and Kompas.com Media. Thesis (S-1) Communication Science Study Program, Faculty Of Social and Political Sciences, Baturaja University, December 2023. Under The Guidance Of Bianca Virgiana, M.I.Kom as Supervisor I and Septiana Wulandari as Supervisor II.

This research discusses the construction of the reality of Detik.com and Kompas.com reporting on the illegal gold mining tragedy in Banyumas using Robert M. Entman's framing analysis model which consists of 4 (four) elements, namely: Define problems, Diagnose causes, Make moral judgment and Treatment recommendations. Used to describe the issue selection process and highlight certain aspects of media reality. The paradigm used in this research is the constructivist paradigm. Research results from both media Detik.com and media Kompas.com using Robert M. Entman's framing model in reporting on the tragedy of 8 victims of gold miners in Banyumas. Researchers found that Detik.com tends to side with the public who criticize the closure of the mine by presenting the news more sharply by emphasizing the title using "Exclamation Marks" and criticizing the necessity that the gold mine must be closed, in reporting on the mine because of gold mining activities which resulted in 8 The victim was trapped in a dug hole. Meanwhile, Kompas.com tends to position itself as media that side with the public, which is more critical of the government and which emphasizes that the local government must focus on this incident and condemn the closure of the mine due to gold mining activities which resulted in 8 gold miners in Banyumas being trapped in water tens of meters deep.

Keywords: Reporting on 8 Gold Mining Victims, Framing, Robert M. Entman.
