Penyusunan Rencana Kerja Pemerintah Desa (RKPDDes) merupakan instrumen penting dalam perencanaan pembangunan desa yang berfungsi sebagai acuan utama pelaksanaan program desa selama satu tahun anggaran. Proses penyusunan RKPDDes tidak hanya bersifat administratif, tetapi juga mencerminkan kualitas tata kelola pemerintahan desa. Penelitian ini bertujuan untuk menganalisis bagaimana prinsip-prinsip *good governance* diterapkan dalam setiap tahapan penyusunan RKPDDes, meliputi musyawarah desa, penyusunan rancangan RKPDDes, dan penetapan RKPDDes. Penelitian ini diharapkan dapat memberikan gambaran empiris mengenai kualitas tata kelola pemerintahan desa dalam proses perencanaan pembangunan. Hasil penelitian menunjukkan bahwa penerapan prinsip *good governance* di Desa Puser sudah mulai terlihat, namun belum berjalan secara optimal. Aspek transparansi masih perlu ditingkatkan terutama dalam penyampaian informasi kepada masyarakat secara merata. Partisipasi masyarakat cukup baik saat musyawarah desa, tetapi belum merata pada tahap penyusunan rancangan dan penetapan RKPDDes. Akuntabilitas pemerintah desa juga menunjukkan kemajuan meskipun masih terdapat tantangan dalam dokumentasi pertanggungjawaban. Sementara itu, efektivitas perencanaan dinilai cukup baik dalam mengakomodasi kebutuhan prioritas, meski masih dipengaruhi oleh keterbatasan anggaran. Penelitian ini diharapkan dapat menjadi bahan evaluasi bagi pemerintah desa dalam meningkatkan kualitas penyusunan RKPDDes di masa mendatang.

Kata Kunci : *Good Governance*, RKPDDes, Pemerintah Desa

ABSTRACT

ANALYSIS OF THE IMPLEMENTATION OF GOOD GOVERNANCE PRINCIPLES IN THE PREPARATION OF THE 2026 VILLAGE GOVERNMENT WORK PLAN

*(Study in Puser Village, West Baturaja District, Ogan Komering Ulu
Regency)*

The preparation of the Village Government Work Plan (RKPDDes) is an essential instrument in village development planning, serving as the primary reference for village programs within a one-year fiscal period. The preparation process is not merely administrative but also reflects the quality of village governance.

This study aims to analyze how the principles of good governance are implemented in each stage of the RKPDDes preparation, including village deliberations, the drafting process, and the finalization of the RKPDDes. Accordingly, this research is expected to provide an empirical overview of the quality of village governance within the development planning process.

The findings show that the implementation of good governance principles in Puser Village has begun to take shape but has not yet been optimal. Transparency still needs improvement, particularly in the equitable dissemination of information to the community. Community participation is relatively good during the village deliberation stage but remains limited during the drafting and finalization stages. Government accountability demonstrates progress, although documentation challenges persist. Meanwhile, the effectiveness of planning is considered sufficient in accommodating priority needs, although it remains influenced by budget constraints. This study is expected to serve as an evaluation material for the village government in enhancing the quality of future RKPDDes preparation.
